Home Page

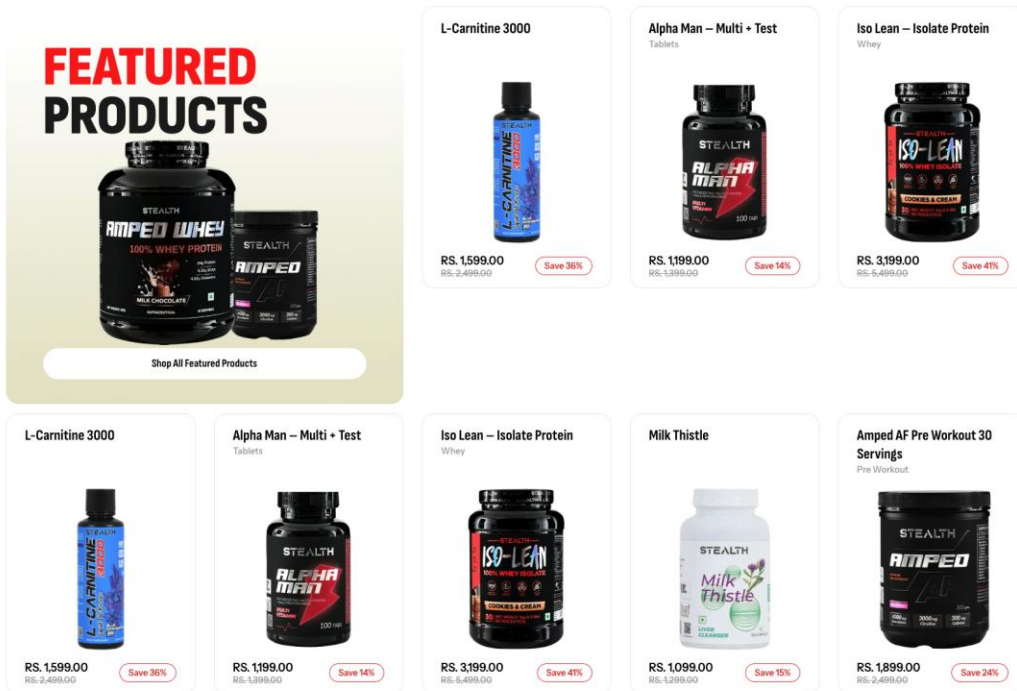

1. Banner is not linked because the product is out of stock, please replace it with the festive one, share over WhatsApp and link it with the collection page - <https://stealthsupps.in/collections/all>

SHOP BY GOALS

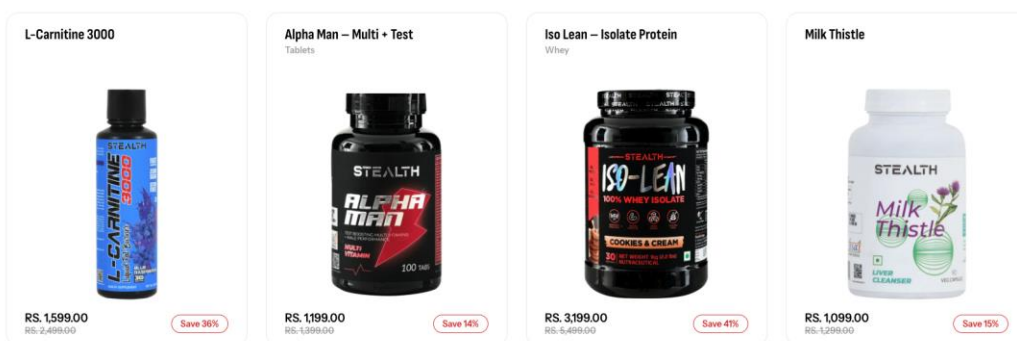

2. Shop now, CTAs are not visible, make it active without hover action. Also please provide padding in this section from top and bottom

3. Shop all featured products are not linked, please link it to all the products section
4. Products CTAs are not visible, please make them by default

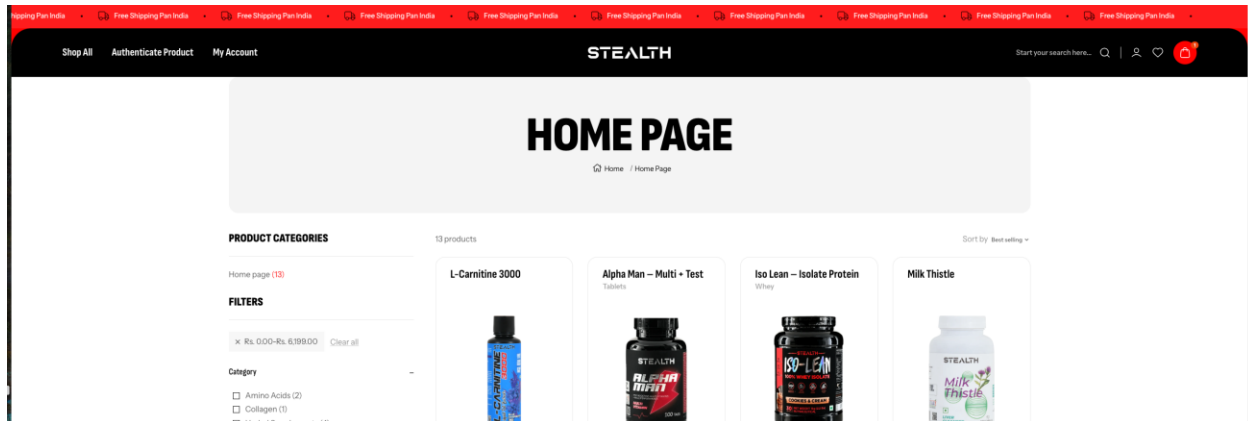

CUSTOMER'S FAVOURITE

[View All Products](#)

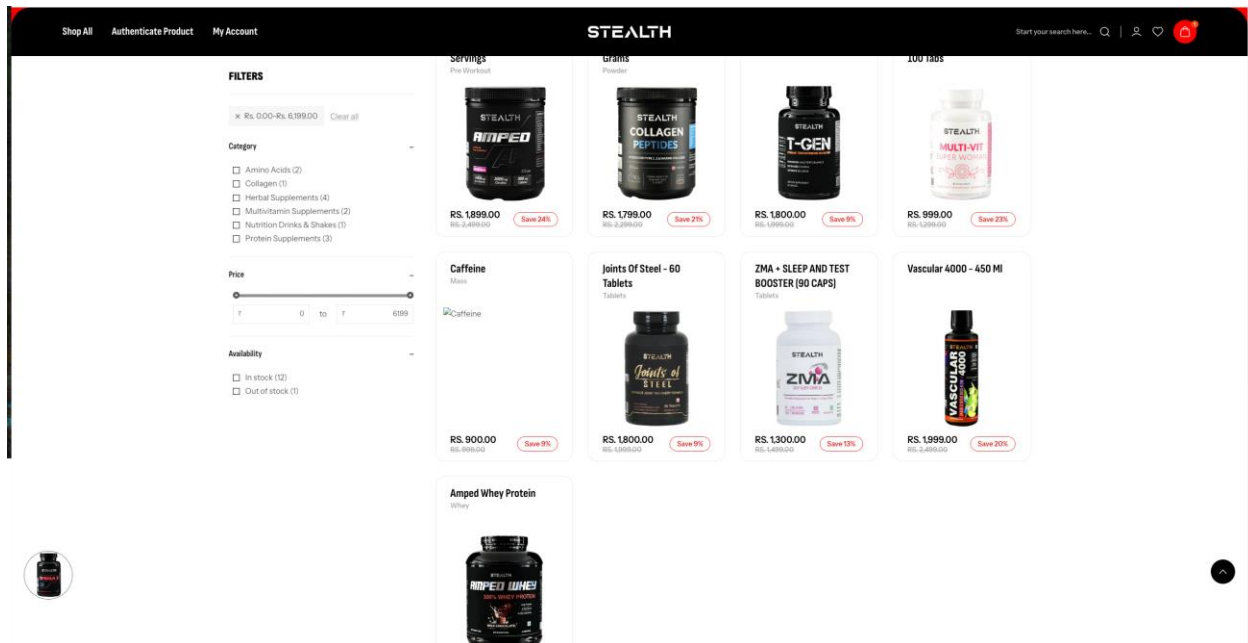

5. CTAs are not visible, please make them visible by default.
6. And can we please move this section before categories, because showing it below is not adding any value.

Shop all Page

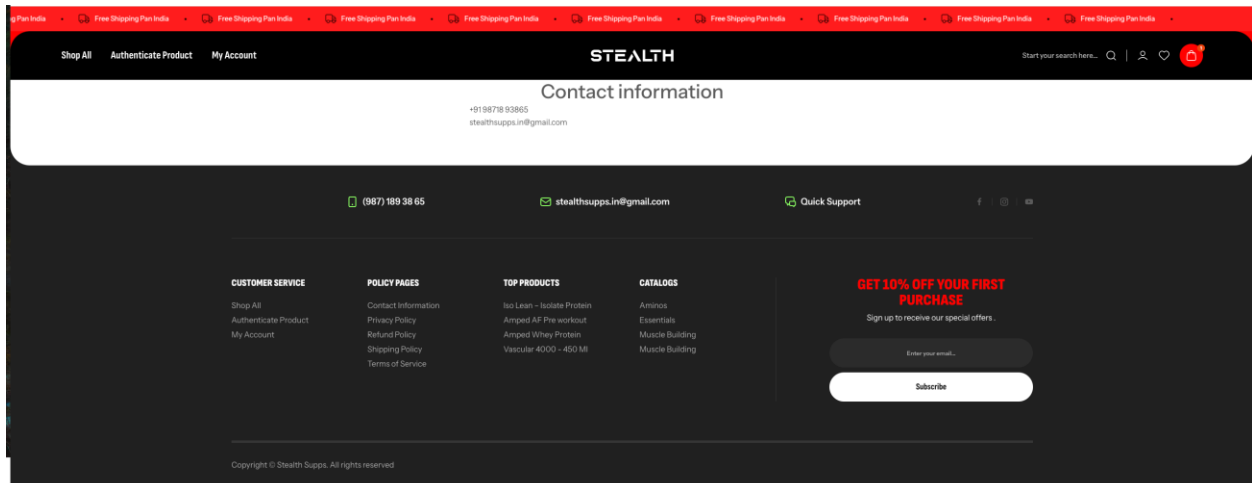

7. Can we please add a banner to this page? Kindly let me know the dimensions and I'll share the banner.
8. Product categories are coming under filters; can we have it shown in product categories please?
9. CTAs are not visible, please make them visible by default.

10. Caffeine product image is not loading, please check and resolve the same.
11. Can we please remove out of stock filter?
12. CTAs are not visible, please make them visible by default.
13. When I'm clicking on my account, it's taking me to a different page, can we do stealthsupps header and footer on that page because it seems like a different page

with blue CTA, this reduces the authenticity of the website because it's breaking the experience.

Contact information

14. Can we please fix this page? This looks a poor experience for a use when they see this page on a website.

Policy Pages

15. Can we please do some UI design for these pages, they look very scary. Seems like a phishing website. Privacy Policy, Refund Policy, Shipping policy, Terms of Service.

Product Pages

16. There is no information about the product, bare minimum details. Please fix this because people will not buy products just based on these details. Need to add more.
17. Under the additional information tab, random information is provided. Can we please remove it. It's not helping in the page. Only increasing the scroll.
18. There is some leftover information on these product pages, which seems to be incomplete. This gives an unprofessional look at the website.
19. Why i click on Zoom icon for the product picture. There is no close option, kindly add a close option. I have to refresh the page to get back to the page. This will hamper the experience and increase the bounce rate.

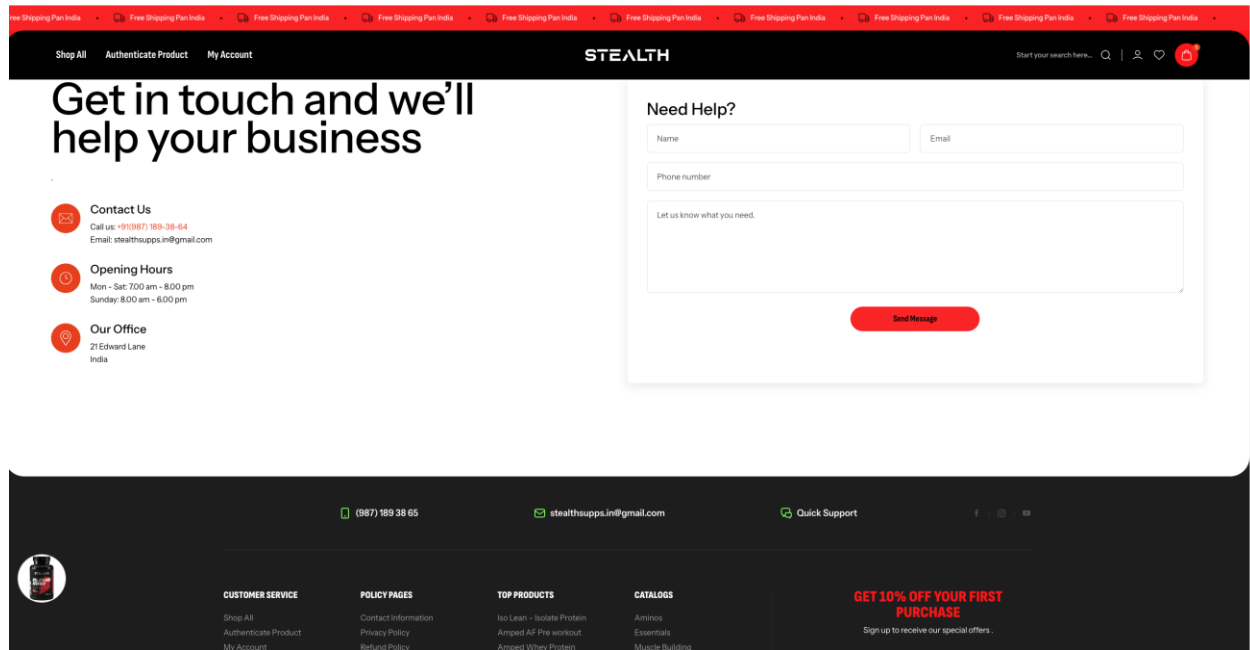

Wishlist

20. This page shows 404 errors. I have added 2 products, but none is showing on the page.

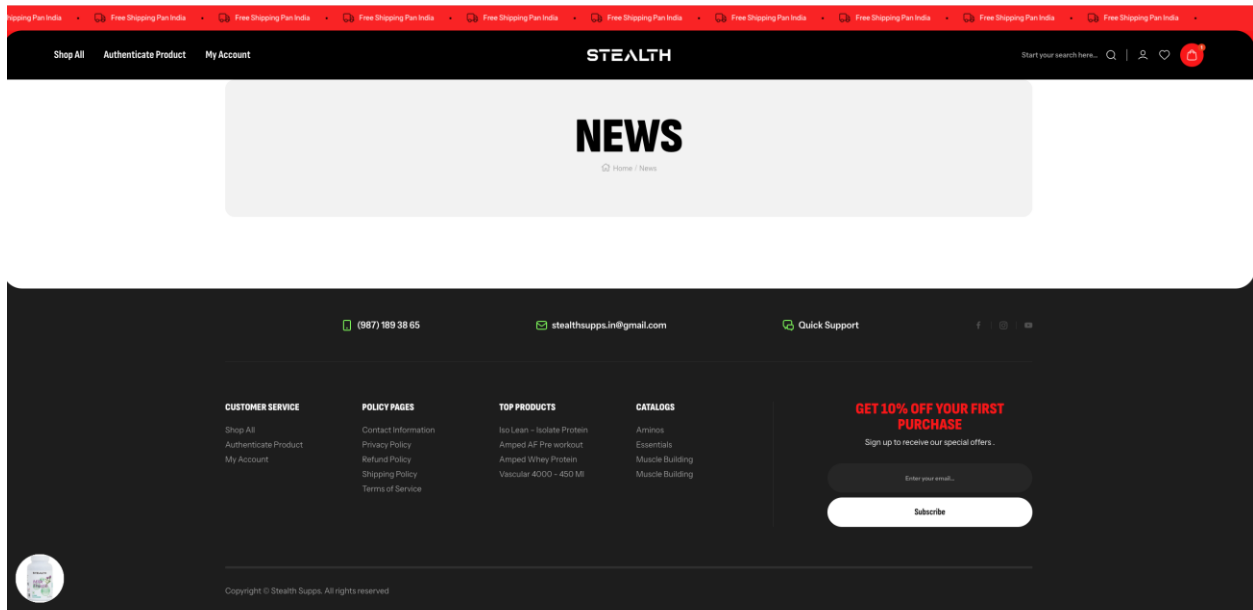

All collection

21. This page only has half cut images, can you please add some title to this and have a better design? Because this seems like a broken page.

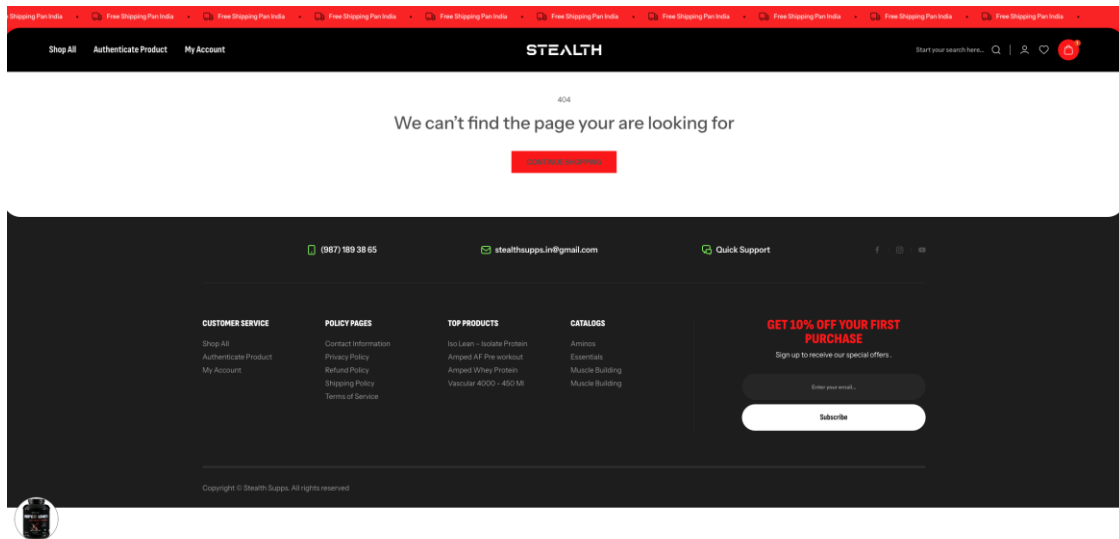

Contact Page

22. Can we please have some padding from the top, because this does not look appealing at all and gives an unfinished look to the website.

Blog

23. There are no blogs on this page, can we please hide it? Because nothing is shown in this.

Compare

24. This page is broken, can we please remove it? Until this functionality is live?

Cart

25. Cart page is having international delivery option, at payment gateway only PAN India delivery is shown, please let me know products are getting delivered internationally then the only error here is “One or more error occurred while retrieving shipping rates:” as shown on the screen. Kindly rectify this.
26. After we accept there is a broken image icon, requesting you to please rectify it.
27. If the cart is empty there is no option to add any products, i have to go back from the header. We should give some options there itself to add some products.
28. You make also like section has a broken image.
29. Cart side menu is getting cut, header and menu is not properly aligned. Please rectify.

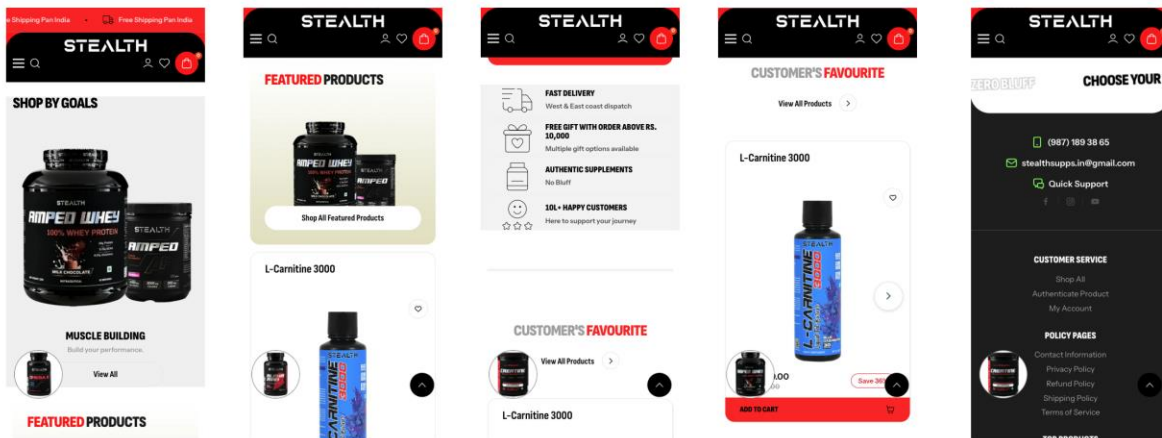

Footer

30. Please change the Facebook link, wrong account is linked, kindly use this URL -

<https://www.facebook.com/STEALTHSUPPS.in/>

31. Muscle building is written twice, please remove one or replace it with another one.

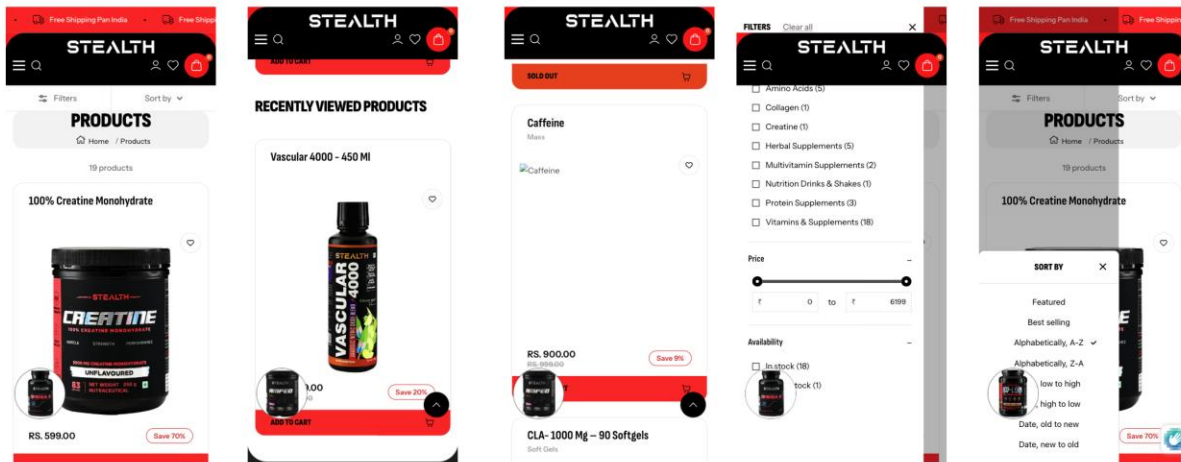

Mobile

1. Banner is not there in mobile
2. Cards shown are too big only one product is shown at a time, customer won't be able to explore more products
3. Shop now button is not visible, getting merged with the backgrounds
4. See all featured products link is not going anywhere
5. As shown above the products cards are so big that I can't see other products
6. In this page only one product is getting displayed, there is no automatic horizontal scroll. Customer won't be able to understand what to do in each section
7. Grey section with key details is getting cut, no padding at all.

8. When I clicked on sticky product image, this side menu appears. No buy now button is shown upfront. And when I'm tapping on this it takes me to the product page. Can we have a button upfront to reduce the number of taps?
9. Cards are too big, can we concise it?

10. Major alignment issue and bugs as shown on the screenshot. Requesting you, please align the elements and fix the bugs. Because as the user it's very frustrating to use a website with these many bugs and problems.

My suggestion would be to do a quality analysis of the website because links are not working, website UX is very poor. The current state of the website won't help the customer to purchase the product smoothly because of which final sale with not be as per expectation.

Please have a look at all the suggestions I have listed, this will help the website give a clean look and overall, a better conversion rate.

Thank you!

Team mooncre
